**ORDER OF NOTICE**

On September 14, 2006, Concord Steam Corporation (Concord Steam), a public utility supplying steam service to approximately 120 commercial and institutional customers and one residential customer in Concord, New Hampshire, filed with the New Hampshire Public Utilities Commission (Commission) a petition to change its Cost of Energy (COE) for the period November 1, 2006 through October 31, 2007. The proposed COE rate is \$17.83 per Mlb (1,000 pounds of steam), compared to the current COE rate of \$14.29 per Mlb, an increase of \$3.54 per Mlb.

This filing raises, inter alia, issues related to forecasting of sales, supplier prices and transportation prices, purchasing decisions related to the current and past annual fuel supplies, the causes and treatment of over and under recoveries, prior period costs and revenues, the reasonableness of the proposed COE rate, the reported costs and benefits of steam turbine cogeneration operations, and the costs and benefits of leasing and operating a wood yard for wood storage and delivery.

Each party has the right to have an attorney represent them at the party's own expense at any hearings.

**Based upon the foregoing, it is hereby**
